

2018 LAWN MOWER CLINIC

CONSTRUCTION SYSTEMS MANAGEMENT AND AGRICULTURAL SYSTEMS MANAGEMENT CLUBS

Believe it or not but spring is just around the corner and it is time to start thinking about getting your push mower ready, so it is in peak condition for the long mowing season ahead! Construction Systems Management and Agricultural Systems Management Clubs at The Ohio State University are joining together to hold their annual Lawn Mower Clinic to provide preventative maintenance service to your “push” lawnmower. Services include:

- Oil Change
- Spark Plug Replacement
- Cleaning under the mower deck
- Sharpen the Blade

The cost for all of this is only \$40! Mowers must be in running condition to be serviced. We will not be providing additional repairs. If extra repair work is needed, our technicians will refer you to a local repair business.

Drop-off (590 Woody Hayes Drive)

Wed.-Fri. Feb.28th-March 2nd

Times: 7:15am-9:15am and 4:00pm-6:00pm

Pick-up (590 Woody Hayes Drive)

Mon. & Tue. March 5th-6th

Times: 7:15am-9:15am and 4:00pm-6:00pm

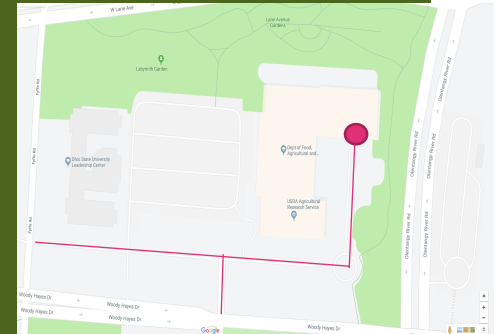

For more information or any questions please contact:

Ross Schroeder- schroeder.755@osu.edu

Matt Schimmoller- schimmoller.6@osu.edu, or

Glen Tipton- tipton.122@osu.edu

Credit Cards will be accepted, for a \$2 service fee.

Drop off and pick up mowers in the Agricultural Engineering Building Courtyard

Bring your mower in, have it serviced and pick it up the next week!

Services Include:

1. Oil Change

2. Spark plug replacement

3. Mower deck cleaning

4. Sharpening Blades

Sorry, no reel mowers, garden tractors, or riding mowers. Equipment must be able to run!
