

Agricultural Engineer / Project Manager

North Point Engineering is proud to have provided excellent professional engineering consulting services for over 22 years. We are a small to medium size specialized firm with extensive agriculture and landfill project experience. We are one of the primary industry leaders in Ohio & Indiana in helping farmers with their development and manure management efforts, and getting needed regulatory permits. We have permitted over 70 dairy farms ranging up to 7,400 cows. We pride ourselves on our common sense approach and relationships with our clients, as well as regulators.

We have an exciting new full-time salaried position with our growing civil engineering consulting firm located in North Canton, OH. This is a unique and outstanding opportunity for personal and professional growth and development. Above all, we are looking for good, smart people with common sense, as well as the right personality and attitude.

Duties:

- Farm Expansion / Development Plans (Dairies, Swine, Poultry)
- Manure Management System Design & Planning
- Sand Recycling Lanes (Dairy)
- Concrete Structure Design
- Regulatory Permitting for Larger Farms
- Construction Assistance & Structure Certification
- Drainage calculations and Storm Water Management Plans
- Communication with clients and regulators

Qualifications:

- BS or MS Degree in Agriculture or Civil Engineering
- 5-30 years' experience Agriculture or Civil Engineering
- Farm Operational experience preferred, but not required
- Deliver consistent high quality work
- Flexibility during heavy workloads
- Experience managing project budgets, preferred

Skills:

- Strong written and verbal communication skills
- Strong work ethic
- MS Office, Excel, Outlook
- Efficient time management
- Proactive, self-motivated
- Adapts well to changing priorities
- Civil 3D Auto CADD a plus

We offer an excellent compensation and benefit package including health insurance and 401K. Salary range dependent on experience.
