

Red Wolf Sanctuary and Raptor Rehabilitation Center is a 501 (c)(3) Non-Profit dedicated to the preservation and continued existence of North American wildlife. Our focus is the education of future generations, teaching them the vital part each species plays in the maintenance of a healthy eco-system. We provide rehabilitation for injured or orphaned wildlife, as well as a home to those who cannot return to the wild.

We are looking for college students to fill our internship and volunteer roles for the Summer 2018 semester. Internships can be adapted to fulfill the requirements of each student's college (e.g. some courses require a research paper, while others require a journal, or project).

If a student cannot fit internship credit hours into their schedule, or doesn't need an internship, they are still welcome to apply as volunteers! Experience will still be gained even if it isn't for credit hours. If this is the case, just write "volunteer" in the University Requirements section of the application.

We are in search of individuals who are willing to learn and work hard! Interns will be required to help with daily tasks, which include animal husbandry, enclosure maintenance, education, and many more which are included on the application. Don't be discouraged from applying if you are unfamiliar with the tasks listed; we are an educational facility dedicated to providing hands-on experience through volunteer positions and internships.

This summer we have several "specialized positions" that we are looking to fill, in addition to regular internships and volunteer positions. If you are selected for a specialized role you will have a project to focus on throughout the summer, but will also still be expected to help with other daily duties as needed.

- Forestry/Botany/Horticulture: focusing on the removal of invasives, tending of gardens, and other landscaping tasks.
- Education: will focus on educational aspects of the Sanctuary such as tours and any outreach programs.
- Engineering/Construction: will focus on the maintenance and construction of enclosures and other needs for our facilities.

Please send applications to [redwolfsanctuary@gmail.com](mailto:redwolfsanctuary@gmail.com) with the subject line "Internship/Volunteer Application". Applications can be filled out directly in your word-processing program, or filled out by hand and scanned. Applicants will be contacted (via phone and/or email provided) shortly upon receiving their application.

We look forward to working with you! If you have questions please contact us at 812-438-2306 and ask for Valerie Rice.

**Availability:**

<u>Monday</u>	<u>Tuesday</u>	<u>Wednesday</u>	<u>Thursday</u>	<u>Friday</u>	<u>Saturday</u>

**Interns/Volunteers will be required to help with all tasks as needed. These tasks include animal husbandry, rehabilitation work, horticulture, enclosure construction and maintenance, meal preparation, cleaning, grounds keeping, education, etc.**

**All internships/volunteer positions are unpaid. Interns/volunteers must be able to lift 50 lbs, as well as stand, and work for extended periods of time as needed. In addition, the intern/volunteer is regularly exposed to outside weather conditions.**

Don't be discouraged from applying if you aren't familiar with the tasks listed above, or don't have any previous experience! We are a learning facility with a goal of providing career experience through internships and volunteering. We are also committed to educating the public about conservation, ecology, and environmental science!

Applicants will be contacted shortly after their application is received.  
 The Red Wolf Sanctuary is in no way obligated to accept an intern/volunteer, even if this application is completed.

An Intern/Volunteer position may be terminated at any time at the Sanctuary's discretion.
