

Bidwell, Ohio 45614

The Hollybrook Farm

We are looking for a summer intern to start working in May.

Honest, trustworthy, and hardworking are a must. Position has a variety of responsibilities. Applicant must be trainable in all aspects of our farm operation. This is NOT an 8-5 job. Must be able to work alone or with other members of crew. We need someone who enjoys working with cattle and doing general farm work. Someone who can artificially inseminate cattle will be a big plus. Whatever the cows/crops need must be done: fixing fence, checking cattle daily, helping with crops, and keeping the overall farm looking good.
