

Monthly meeting minutes – June 26, 2014

Attendance:

Juliana Vasco Correa
Benish Saba
Marie Gildow
Natasha Faze
Abby Tamkin
Andreas Culbertson
David Wituszynski
Sravanti Paluri
Jingxin Guo
Ryan Billman
Brittany Schroeder

1) Campus Parc fundraiser

Someone from Campus Parc came to talk about working football Saturdays.

We would get \$9/hr/person, and a ticket* each to the game (not paper, will call) shifts: 4am start for a 8am game and are 8-12 hours (and we can't change people in and out to complete a shift). We would be paid after each game, about a two week lag time.

Lunch is provided for late games

*I'm not clear on how you get to use the ticket if you're working, but I didn't think of that until now.

There is no minimum # of people, no commitment for number of games, just need to know for sure by Wed before. At this point he wants just a guesstimate of the number of people interested.

If we fail to bring the number of people we commit to, they will ban our group from working with them again, so if we commit to this, we need to really commit.

The dress code is a polo with Ohio State colors, khaki pants (no jeans), and close toed shoes. More flexible in the winter.

2. OSU ASABE grad chapter

-meeting would happen at the same time as the GSO meeting
-Brittany is president. Yay!

-If someone can go to the session on grad student chapters at ASABE (in Montreal) on Wednesday, July 16 9am-12pm, let Brittany (and the rest of us) know of any helpful things you learned.

3. Soil, water, bioenergy field night. Tuesday, July 8. 5:30-9pm
Andreas, Abby, David, Benish, Marie, Juliana interested in going.
Contact Andreas if you're interested.
It's free, but we need to register by July 3 (tomorrow!)
It's about a 1.5 hour drive from Columbus.

*If you are interested in going to the Soil, Water and Bioenergy Resources Field Night next Tuesday, RSVP is needed tomorrow, contact Charissa McGlothlin at mcglothlin.4@osu.edu or at 740.289.2071 ext. 132 (flyer attached)

4. CGS Career Development Grant (up to \$350)

Very broad. Not many people apply.

Three funding periods, a deadline for each.

Go here for more info:http://cgs.osu.edu/funding/development_funding/

5. CERC: Environmental Sustainability Council (within the Council for Graduate Students)

-Natasha is heading it up.

-Dates for meetings to come.

6. Program Funds

As a university club, we have some program funds that we want to figure out how to use, so if you can think of an event idea, bring it up at the GSO meeting. The program funds are about \$2000-3000, and need to be used for an event open to the whole university

Andreas will look into requirements.
